

26th National Symposium on Cryogenics and Superconductivity

Wednesday 22 February 2017 - Friday 24 February 2017

VECC

Conference Scientific Programme

Cryogenic Systems: Refrigeration / Liquefaction

Superconducting Magnet and SCRF cavity

Societal & Other Applications of Cryogenics & Superconductivity

Electrical and Power Applications

Air / Gas Separation / Purification

Superconducting Materials / Low Temperature Physics

Cryocoolers / Cryopumps / Cryogenics Systems

Cryogenic System Instrumentation and Control

Cryogenics Storage and transfer lines / Space Research / Cryogenic Test & Test Facilities

Heat Transfer / Thermal Insulation / Thermal Analysis
