Address for Correspondence:

## TOPICS

### 1. Large Vacuum Systems:

Particle Accelerators

Space Simulation Systems

Plasma Fusion Devices, etc.

### 2. Vacuum Technology:

Production of low, medium, high, ultra high

and extreme high vacuum

Vacuum Measurement

Leak Detection

### 3. Application of Vacuum Technology:

Vacuum Evaporation, Welding, Melting, Hard

Coatings and Thin Films

### 4. Application of Cryogenics in Vacuum Cryopanel

## IMPORTANT DATES

Intimation of Participation

Aug 30, 2011

Abstract Due Date
